REAL ESTATE IN VIRGINIA FOR SAIE.

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms. It consists, first, of \$47 acres of land, in from two and a half to four miles of Brentsville, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Orange and Alexandria Railroad, which will be completed to Brentsville this year. This land is well adapted to the growth of wheat, corn, rye, oats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, plaster, guano, &c. It is heavily timbered, and finely watered, having lasting springs of the purest water. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a company, or will divide it to suit purchasers, at prices ranging, according to quality, at from \$5 to \$5 per acre. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carriage-maker, wheelwright, or blacksmith, with two dwelling-houses, kitchens, blacksmith, carriage, and wheelwright shops, and other necessary buildings. \$1600 is now my pre for this property—on the same terms as the land. It is within a mile and three quarters of the railroad.

Thirdly. Nine and a quarter acres of land on the turnpike, just above Buckland, on which are a good dwelling-house, a large wheelwright shop, kitchen, stable, dairy, and smoke-house. It would make a good tavern stand, and the shop a good stable. For this property I will take \$400—on the same terms.

Fourthly,

Fifthly. A lease lot in Haymarket, with a pretty good

Fifthly. A lease lot in Haymarket, with a pretty good house, kitchen, a large shoemaker's shop, stable, &c. The buildings are a little out of order. The lease may run for ten or twelve years. For this I will take \$100.

Sixthly. A valuable farm in Alleghany county, Maryland, containing 200 acres, within eight miles of the National Road, and ten to twelve miles of the Baltimore and Ohio Railroad. This farm is in a thriving neighborhood, is heavily timbered, has a good and never-failing stream of water running through it, and several mill-seats; abounds in iron ore and coal; has a fine sugar maple orchard on it, and a mineral spring, which I think equal to the White Sulphur or Bedford, and has now some forty or fifty acres of the land cleared. The soil is not surpassed by any in the country. I am disposed now to take \$4 per acre for it. Mr. Abraham Steel, who lives near it, will show it to any one wishing to purchase. The property in Prince William county, Virginia, will be shown by Eppa Hunter, esq., who is authorized to sell; or by Mr. Edwin W. Latimer, or Mr. Robert Hodgkin. I shall be in Brents-wille about the middle of May, and will, in person, show the property to any one wishing to purchase.

HEAR YE! HEAR YE!! HEAR YE!!!—READ AND BE WISE.—The celebrated German Physicians, Drs. BROTHERS & GRAY, have finally concluded to settle themselves in the city of Washington, after having traveled the world over in search of knowledge; and having spent seven years among the Indians for the purpose of getting a thorough knowledge of Botany, they flatter themselves qualified to alleviate and cure all complaints to which the human family are subject. We flatter ourselves that all who favor us with a call, that we will, without asking them a question, tell them their complaints and symptoms, and guaranty an easy and speedy cure. We require, for examination, at least two ounces of the first urine in the morning. The Doctors' Medicines are wholly Vegetable, and prepared by themselves. We also guaranty to cure the most inveterate sores, no matter from what cause they may have originated, or how long standing, viz: Fever, Ague, Cancer, &c.

Drs. Brothers & Gray's Indian Vegetable remedy is the most important discovery ever made in the practice of medicine, for the cure of the chest, stomach and lungs, or liver, viz: Consumption, both nervous and pulmonary; also, Coughs, Colds, Bronchitis, and all pains arising from the chest, lungs, or liver; all cases of nervous weakness, Neuralgia, Hypochondrincal complaints; all cases of the Kidneys, Fever and Ague, Propsy, Salt Rheum. Syphilis, Piles, Gravel, or all Scrofulous Complaints; Mercurial diseases, Rheumatism, and all complaints which require the blood to be pure and healthy, and to assist nature to perform her natural functions.

Post Office Department,

March 14, 1851.

T being desirable to substitute locks and keys of so

It being desirable to substitute locks and keys of some other kind for those new in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. Por the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keysadapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fulfil faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hersinafter mentioned, to annul said contract, and to contract anew with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he may select, and also the right to reject all the specimens and proposals, if he shall deem that course for the luterest of the Department. The party or parties contracting will be required to give bond, with ample security, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper in spection of the locks and keys, and also for guarding against their passing into improper hands; the terms of these provisions to be arranged between the Department and the successful bidder, if a bid should be accepted.

No application will be considered if not accompanied with satisfactory evidence of the trustworthy character of the bidder, and of his ability to fulfit the courract.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work." Letter from the Hon. Thomas H. Benton,

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefuly consulting it.

Very respectfully, sir, your obedient servant,

THOMAS H. BENTON.

BRITISH QUARTERLY REVIEWS.

Owinds to the late revolutions and counter-revolutions among the nations of Europe, which have followed each other in such quick succession, and of which "the end is not yet." The leading periodicals of Great Britain have become invested with a degree of interest hitherto unknown. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect records of the newspapers, and the elaborate and ponderous treaties to be furnished by the historian at a future day. Whoever reads these periodicals obtains a correct and connected account of all the important political events of the Old World, as they occur, and learns the various conclusions drawn from them by the leading spirits of the age. The American publishers therefore deem it proper to call re-American publishers therefore deem it proper to call re-newed attention to the works they publish, and the very low prices at which they are offered to subscribers.

Liberal. The "North British Review" owes its establishment to the last great ecclesiastical movement in Scotland, and is not ultra in its views on any one of the grand departments of human knowledge. It was originally edited by Dr. Chalmers, and now, since his death, is conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order. The "Westminster," though reprinted under that title only, is published in England under the title of the "Poreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage, by this combination, of uniting in one work the best features of both, as heretofore issued.

Mr. Robert Sears—Dear Sir: I have looked over the entire series of your valuable publications with much interest and profit; and am quite surprised at the amount of literary labor you have performed, and the research it must have cost you to obtain so many fine illustrations, while you have an active superintendence of an extensive business. I am also gratified at the decidedly moral and religious influence which your books will exert, and cannot but hope that they will do much to counteract the effects of that light and immoral literature which deluges the land, and, like the frogs of Egypt, comes up even to the kneading troughs of our kitchens. May you live long to follow your plans.

LEVERETT'S LATIN LEXICON, NLARGED AND IMPROVED, compiled chiefly from the Magnum Totius Latinitatis Lexicon at Facciolati f Forcellini, and the German works of Scheller and Luc-mann, embracing, also, the classical distinctions of rds, and the Etymological Index from Freund's Lexi-

con.

The present edition of this standard and favorite Latin Lexicon has been much improved by the transfer to its columns of the classical distinctions of Latin words, as given in the Lexicon of Dr. Wm. Freund, of Germany, and translated by Riddle. The classical degree of each word is indicated by a figure; for example, a word without a figure is fully classical and Ciceronian; with the figures 1, 2, and 3, words are classical only in the first, see, ond, &c., degrees; and this distinction the student perceives at a glance. The Etymological Index, also from Freund's Lexicon, has been incorporated into the present edition of Leverett, and will be found a valuable acquisition. While transferring these notes and marks, catalogues were carefully kept of the words found in each Lexicon, which were not found in the other. On comparing these catalogues, it was found that the value and importance of the additional words found in Leverett, so far as a knowledge of the Latin language is concerned, very far exceeds that of these found in Riddle's Freund. The extensive use of Leverett's Lexicon in all parts of the country, and the preference which has been universally given to if over all similar works, render its recommendation superfluous; but attention to this new edition is respectfully invited, as being still more worthy thain its predecessors of the distinguished favor which the work has hitherto received.

This well known and extensive establishment invites Merchants, Manufacturers, and Bankers, to an investigation of its system, and gratuitjous test of its records of the standing and responsibility of traders in the U. States.

Our increased patronage has enabled us, during the past year, to open offices in Cincinnati, Louisville, St. Louis, and New Orleans; these, in connection with our long established offices in Boston, New York, and Baltimore, enable us to offer facilities and advantages which time and experience alone could accumulate, and which we believe are unequalled.

We are prepared to make collections in any of the States, Territories, Camada, Eugland, Ireland, Scotland, France, Germany, and in any commercial port of the world, and will pay particular attention to old and doubtful debts, in the collection of which class we have extraordinary facilities, and have been unusually successful.

Having full lists and reports of nearly all the Attorneys in the United States, we are at all times prepared to furnish you, gratuitously, the names of good and responsible lawyers in any part of the United States and Canadas.

Connected with our Agency is a Commissioner for nearly all the States, who is enabled to afford every facility and legal form for preparing accounts, &c., for immediate use, thereby avoiding a delay often fatal to the collection of a debt.

AMERICAN HOUSE, Hanover street, Boston. THE Undersigned having entirely rebuilt and larged the above extensive establishment, containing in all about three hundred and fifty roo would respectfully give notice that it is now ready for reception and accommodation of the travelling commodation.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perflect. The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Homemar 24.

The following are a few of the many commendatory let-

Letter from the Hon. Henry Clay.

Ashland, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble oplaion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, Lam glad that it has been, and Letter from the Hon. Henry Clay.

Austin's Magic Freezer,

Through in six minutes. For the preparation of
lee Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—
1st. The astonishing rapidity of the process, surpassing belief—hence the name.
2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.
3d. It does not require a tenth part of the labor that the common Freezer does.
4th. It does its work better, producing a better article, in every respect, than by any other mode.
5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubts.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality fee Cream from five of plain Cream, in thirty minutes from the time I commenced working it.
